## **FEL Motorsports announces two TCA cars for sale to compete in the Sports Car Championship Canada presented by Michelin**

### ***Two Hyundai Veloster TCA racecars for sale***

ST. CATHARINES, ON (May 10, 2023) - FEL Motorsports announces that they have acquired two Hyundai Veloster Turbo TCA cars for competition in the Sports Car Championship Canada presented by Michelin (SCCC).

FEL Motorsports is committed to the continued growth of motorsports in Canada. In 2023, FEL Motorsports introduced the new TCA class to the SCCC to provide a space for cost-effective, entry level homologated racing. In the spirit of this, the team at FEL have facilitated the logistics and documentation of two Hyundai Veloster Turbo racecars, built and homologated for competition in the TCA class by Bryan Herta Autosport.

Cars, landed in Canada with duty and shipping paid, each come with the following:

- Brand-new set of Michelin sticker tires
- Brand-new new set of Michelin rain tires
- Brand-new set of Wilwood brakes
- Two brand-new sets of additional wheels

The acquisition was intended to eliminate the challenges of importing a race car, and offer ownership via one single transaction. These cars are currently in Canada and are available for immediate sale. Interested buyers should call Chris Bye for details on pricing.

"Adding the TCA class to the SCCC now gives more teams and drivers access to FEL Motorsports in a cost effective manner. We feel this entry level homologated class will continue the strong growth that we have seen over the past two years and into the third. The TCA class will give teams access to 4 of the 5 largest race weekends in Canada with two weekend at CTMP, Honda Indy Toronto, and GP3R. To say that I am excited about the potential growth this class helps to bring to the SCCC, would be an understatement," said FEL President, Chris Bye.

The season is set to begin at the Victoria Day Speedfest at Canadian Tire Motorsport Park on May 19, 2023.

### **About FEL Motorsports**

FEL Motorsports grew out of a deep base of automotive roots from FEL Automotive Learning and Promotion. FEL Motorsports is focused on growth and sustainability in the Canadian Motorsports landscape by giving back to its teams through prizing and prize money.
